MEMPHIS APPEAL BANKS AND BANKING COTTON-COMMISSION.

OFFICE OF THE DAILY APPRAL. Our merchants were in the "blues" to-day favorable reports of the growing cotton in Mis-stempt and Alabama. Estimates of the crop

are dully decreasing. husiness with the banks has been bettersine the first of the month, but Front street does not present the appearance of activity expected Exchange issessee at some of the banks, but n good supply with the greater number. There is a moderate increase in the demand. Bank-ersoperate on the following basis;

Buylng. par to b prem. Money is easy, though a little more active Cotton factors are beginning to apply for mon ey for directiation in the interior, and bankers are discounting good paper at agge per annum. The present drain, however, is exceptional, and has been chiefly caused by large purchases of bills upon Eng-tand, and which have been converted into gold to meet the paymen s on the new French loan of ESSTO 00. The great success of the loan in Paris renders it possible that the shipments of each from this side will fail off. Nevertheless. have been purchased for the contine result is that our stock of gold is decline country. Singularly enough, the want of contience in commercial quarters is still foit both
in England and France. Trade, as a whole, is
otherwise than in a flourishing state, and the
hoarding of capital is still going on. The low
rates at which money can be oblained, appear
to have no influence upon the produce and
other markets, and our merchants, as a body,
appear determined to continue their operations
upon a scale barely equal to the wants of the
consumers.

Our advices of damage to the growing cotton are chiefly from Alabama and Mississippi. We hear no complaint of crops in this State, and out little from Arkansas, but a few days of weather like the present cannot but cause general disaster. It is to be hoped, however, that rain is not general. The young beils squares and blooms have been destroyed to an alarming extent, and it is said that in cer pertions of Mississippi the "second growth" will not be ten pounds to the acre. stocks and bonds are dull and nominal.
